

Valid from June 26th, 2007

Identification:

Lentinex[®]: a standardised liquid containing bioactive polysaccharides exported from the mycelium of the Shiitake mushroom

Content:

Water \leq 98 %, Glucose < 2.0%, Protein < 0.01%, Free Amino Acids <1.0%, Polysaccharide 0,1%

Declaration:

1 ml of Lentinex[®] provides 1 mg of polysaccharides (β -Glucans, lentinan)

Physical specifications:

Physical form:	Liquid
Appearance:	Straw Coloured, particle free
pH:	3,5
Packaging:	Plastic bottles containing 5 or 25 litres

Safety Specifications:

Heavy metals:	Not detected (detection limit <100 μ g/l)
Microbiological data:	Sterile liquid

Handling/stability:

Storage:	Room temperature (<25°C)
Shelf life:	24 months
